

WATERPROOFER

We are looking for a qualified Waterproofing Technician to apply specialized coatings and materials to protect buildings and structures from water damage. The ideal candidate will have experience in waterproofing applications and a strong understanding of construction and building materials. As a Waterproofing Technician, you will play a crucial role in maintaining the integrity of structures and preventing water-related issues.

Responsibilities:

- Apply waterproofing materials to various surfaces, including roofs, basements, and foundations.
- Inspect and assess structures for potential water damage and areas that require waterproofing.
- Repair and restore existing waterproofing systems as needed.
- Collaborate with construction teams to ensure proper integration of waterproofing measures during building projects.
- Utilize specialized tools and equipment to achieve effective waterproofing results.
- Stay updated on industry trends, materials, and techniques related to waterproofing.

Requirements:

- 2 years' experience as a Waterproofing Technician or similar role.
- Knowledge of various waterproofing materials, techniques, and applications.
- Ability to read and interpret construction plans and specifications.
- Strong attention to detail and precision in application.
- Physical fitness and the ability to work in various weather conditions.
- Excellent problem-solving and communication skills.

Required Certifications:

- Valid driver's license
- OSHA Safety Certification

Education:

- High School Diploma or Equivalent (preferred)

Job Types: Contract, Full-time

Salary: \$25.00 - \$40.00 per hour

Benefits:

- 401(k)

Schedule:

- 8-hour shift
- Day shift
- Monday to Friday
